

Compact Filter 250

Modesta Compact Filters use negative pressure air filtration. They are designed to filter dust from woodworking machines but can also be used for extracting dust and chips from plastic, aluminium and paper.

Key advantages

- ATEX-compliant
- EN 16770-compliant
- Low noise level
- Improved extraction power
- Compact dimensions
- Minimum air flow monitoring
- Highest fan efficiency
- Enhanced negative pressure
- 2-year warranty

Technical Specifications

Power	5,5 kW
Air flow (min.)	3.534 m3/h
Pressure at inlet	2.300 Pa
Air flow (max.)	5.000 m3/h
Filter area	25,4 m2
Filter cleaning	Automatic, offline; option online (compressed air)
Residual dust emission	<0,1 mg/m ³
Bin volume	480 Liter
Noise level	70 dB(A)
Voltage	400V/50Hz
Current	10,5 [A]
Weight	850 kg
Dimensions (LxWxH), max.	3.475 x 970 x 2.584 mm
Inlet diameter	250 mm

Unit without options, in mm
