

Compact Filter 350

Modesta Compact Filters use negative pressure air filtration. They are designed to filter dust from woodworking machines but can also be used for extracting dust and chips from plastic, aluminium and paper.

Key advantages

- ATEX-compliant
- EN 16770-compliant
- Low noise level
- Improved extraction power
- Compact dimensions
- Minimum air flow monitoring
- Highest fan efficiency
- Enhanced negative pressure
- 2-year warranty

Technical Specifications

Power	11 kW
Air flow (min.)	6.927 m ³ /h
Pressure at inlet	2.750 Pa
Air flow (max.)	8.000 m ³ /h
Filter area	49,6 m ²
Filter regeneration	Automatic, offline; option online (compressed air)
Residual dust emission	<0,05 mg/m ³
Bin volume	640 Liter
Noise level	70 dB(A)
Voltage	400V/50Hz
Current	20 [A]
Weight	1320 kg
Dimensions (LxWxH), max.	4.315 x 1.1357 x 2.628 mm
Inlet diameter	350 mm

Unit without options, in mm
